Projects

Photo Gallery Web App — Web Development

Created a photo gallery web application in Node JS (Javascript)
The application accepts images from the user and displays them in the form of an image gallery. Implemented user-authentication features (login, logout, register) from scratch.

My Timetable WEB App — Web Development

Created a simple timetable management web app in JavaScript.
The application can store classes along with timings in a database and then retrieve daily classes and display them in a ListView

Projects

Book Sharing Website – *Web Development*

Developed a fully functional book sharing platform using the MERN Stack.

Implemented the advanced Javascript techniques and matching using NODE JS.

Implemented the database functionality using the MONGO DB.
